## M-Class Mark II

## Compact Barcode Printers

The M-Class™ Mark II family of compact industrial printers offers outstanding value with a broad range of features. The smaller footprint is ideal for users who need the power of industrial printers but must consider space limitations. The M-Class is a perfect solution for warehouse, healthcare, logistics and retail applications. The printer family's modular design makes maintenance and part replacement easy. And the flexible design allows a variety of options to be upgraded in the field.

M-Class Mark II printers reduce the total cost of ownership with easy-to-maintain components. They offer you a broad range of connectivity to meet diverse application requirements and easily integrates into most networks. With an easy-to-navigate LCD graphics display for menu and printer function control, they're designed for any level of user. Support of UHF or HF RFID configurations for current or future requirements protects your printer investments. The high-quality features, performance and rugged reliability make the M-Class Mark II family a better value than most printers on the market.

And you can use M-Class Mark II printers in a wide variety of applications with a range of media compatibility, connectivity, emulation support and options, including RFID support. They're easy on your budget, while providing industrial printing performance in a small footprint.

The M-Class Mark II family keeps up with highlabel-demand applications, boasting faster performance than many printers in its class. The modular design and field-installable options cut back on downtime and improve efficiency.

## FEATURES & BENEFITS

 Rugged construction features a precision diecast aluminum frame.

 Five-button, 128x64 LCD graphical backlit display is easy to read, enabling user-friendly label configuration setup.

 Modular design allows for user field-upgradeable options like thermal transfer and internal rewinder.

 Utilizes widely used DPL and supports PL-Z (Zebra), PL-I (Intermec) and PL-B (Boca) printer command languages for easy emulations.

 Multi-language menu available in English, Spanish, German, Italian and French.
